Annex 3.2.4.2.A

Supplementary information to the declaration from Bente Klarlund Petersen, received by the Secretariat in mail from Anne Marie Winther Petersen 10. April 2012:

“Regarding paper A33.
In agreement with Professor Bente Klarlund Pedersen I would like to add information to the Milena Penkowa Independent Investigation Report made by Bente Klarlund Pedersen.
Milena Penkowa did in fact show the IL-18 immunohistochemistry results to me. Together we looked through the slides in a microscope in her laboratory. The cutting and staining were performed by our labtechnician Ruth Rousing.”
